

STEM in Action

Open Educational Resources for Teachers
Project number: 2020-1-TR01-KA203-094309

The ERASMUS + project STEM in Action is based in the field of higher education and aims to help children how to program, make codes, and understand technological devices. During STEM education – Science, Technology, Engineering, and Mathematics activities, students learn in a safe environment that allows them to fall and try again. STEM education stresses the value of failure as a learning exercise, which will enable students to embrace mistakes as part of the learning process.

STEM in Action; Open Educational Resources for Teachers is based on Online and Face- to- Face STEM courses to the teachers free of charge.

Project duration: December 31st, 2020 to December 30th, 2022.
